

# ALFRIE S. VALLE

## DATA ANALYST | FULL-STACK DEVELOPER | BI & AUTOMATION

Dasmariñas, Cavite, Philippines • vallealfrie@gmail.com • 0907 357 4769

<https://vallealfrie-png.github.io/mywebsite/>

### PROFESSIONAL SUMMARY

Data Analyst and Full-Stack Developer with 10+ years of experience spanning healthcare data, finance operations, reconciliation, business reporting, and data-driven systems. Builds database-backed dashboards, analytics platforms, automated workflows, and responsive business interfaces using SQL/PostgreSQL, Supabase, JavaScript, Excel/VBA, Power Query, and BI visualization tools. Combines business-process knowledge with hands-on development to turn messy operational data into usable systems and decision-ready insights.

### CORE SKILLS

**Data & Analytics:** SQL, PostgreSQL, relational data modeling, ETL/ELT, data cleaning, data hygiene, auditing, trend analysis, segmentation

**BI & Reporting:** Interactive dashboards, KPI scorecards, executive reporting, Chart.js, Looker Studio, Power BI

**Development:** JavaScript, HTML, Tailwind CSS, responsive UI/UX, database-backed web applications

**Databases & Cloud:** Supabase, PostgreSQL, data synchronization, relational schemas

**Automation:** Excel VBA, Power Query, macros, automated reporting and workflow design

**Domain Knowledge:** Healthcare ERP/EMR data, hospital operations, financial reconciliation, ledger processes, pricing analysis

### PROFESSIONAL EXPERIENCE

**Perpetual Help Medical Center (PHMC) | Data Analyst / Full-Stack Developer | July 2022 – Present**

- Transform healthcare ERP data from the core BizBox system by extracting, cleaning, and modeling unstructured transactional data to reduce systemic errors and duplicated ledger entries.
- Build automated databases, dashboards, and reporting tools that support hospital management and business decision-making.
- Analyze healthcare and consumer demographic data and hospital visitor trends, translating complex metrics into high-level visual reports for administrators.
- Use AI-assisted development and recursive data-fetching approaches to overcome API row limitations and maintain synchronized medical master data.
- Perform pricing analysis, cost analysis, and data mining for products and services.

**Veterans Bank | Accounting Personnel | February 2013 – December 2020**

- Performed reconciliation of outward and inward checks and monitored transactions with other teams to coordinate correction of ledger entries.
- Worked with teams and branches to resolve complex transaction issues and respond to operational inquiries.
- Developed strong working knowledge of bank clearing processes, controls, and operational protocols.

**Profriends | Loan Processor | September 2011 – September 2012**

- Processed up to 300 loan applications while meeting deadlines and maintaining accurate electronic records.
- Supported administrative staff and coordinated information entry in the Loan Organization System.
- Handled electronic data with attention to privacy and record accuracy.

### SELECTED PORTFOLIO

**Sales Force Intelligence & Analytics Platform** — Interactive sales performance system featuring dynamic time slicing, target-versus-actual tracking, revenue breakdowns, territory analysis, and product-stream intelligence.

<https://salesforce-tawny-xi.vercel.app/>

**Payroll Analytics & Command Center** — Business-oriented payroll interface demonstrating employee analytics, payroll processing, reconciliation, exceptions, and audit-oriented reporting.

<https://vallealfrie-png.github.io/Payroll/>

**Project Management & Operational Delivery Matrix** — Operational tracking portal for project delivery lifecycles, resource utilization, task completion velocity, and bottleneck/risk indicators.

<https://vallealfrie-png.github.io/projectmanagement/>

**MyCottage — Business Website Concept** — Client-facing business website concept demonstrating responsive UI, polished presentation, business-focused sections, and conversion-oriented web design.

<https://clientsample.vercel.app/>

### KEY SYSTEM PROJECTS

**Marketing Intelligence & Production Analytics Ecosystem** — Built a real-time analytics platform using Supabase PostgreSQL and Tailwind CSS; developed ingestion and chunking pipelines for 60,000+ rows, date/time normalization, multi-tier business logic, patient-group segmentation, YoY performance modeling, and interactive Chart.js visualizations.

**HMO Hub Monitoring & Billing Management System** — Designed a hospital-level financial tracking system linking patient records with insurance verification and ledger reconciliation; created strict relational schema constraints for the workflow from case intake through final billing settlement.

## **EDUCATION**

**Universidad de Manila** — BSBA, Major in Marketing (2007 – 2011)

**S.T.I.** — Diploma in Computer Electronic Technology (2001 – 2003)

## **SEMINARS & TRAINING**

- DigiTech: Mastering Your Tech — June 15, 2022
- Home Credit: RealTea Talk — March 18, 2022
- Veterans Bank: Signature vs. Forgery Detection — March 1, 2014
